TISA

INTRODUCING TISA'S NEW WORKSTREAM STRUCTURE

Our working groups reflect TISA's broad scope of interests and focus on meeting the needs of consumers, members and our industry. TISA groups can be both strategic and technical, in terms of the policy/regulatory areas covered.

In our new workstream structure we have divided our policy work into four pillars, based on the group's focus.

1. **Consumer Protection** – protecting the best interests of UK consumers in their financial journeys
2. **Consumer Access** – considering issues that could directly impact access to financial products
3. **Effective Products** – examining key considerations and legislation relating to products across the investing and saving landscape
4. **Corporate Responsibility** – exploring issues that directly impact society, the environment, and the economy.

Chair's Forum *NEW*
The chairs forum will be made up of groups leads from the four pillars and the aim is for them to share and keep abreast of all TISA work for a more joined up approach.
